

Black Walnut | Live Edge

We specialize in premium quality live-edge Walnut dining & conference room tables and tops. Our solid wood tables are hand made in the USA, at our furniture workshop located in Dundee, Illinois.

- **Superior Quality:** Every live edge slab is professionally kiln dried in-house to assure enduring eye appeal and generational quality.
- **Timeless Elegance:** Our live edge tables are refined, rather than rustic and enhance any décor style.
- **Craftsmanship:** Each table is crafted as a unique showpiece with time tested joinery
- **Finish:** Our live edge tables are top coated with the finest solid wood finish available, Milesi 2K acrylics offer superior durability and will never exhibit water rings.
- **Experience:** We have shipped thousands of our handmade live-edge tables to satisfied residential and commercial clients nationally.
- **Sustainability:** All live-edge slabs are milled from “Rescued Trees” and have not been taken down or logged for wood value.
- **Natures Design:** We craft live edge tables in our premium two slab, mirror image, book-match configuration and our stunning three slab tops taken from the same tree
- **Usage:** Dining Tables, Conference Tables, Bar and Kitchen Island Tops, Hospitality

Two Slab Book-Matched Top

Three Slabs from the Same Tree

Our custom-made live edge slab tables are hand crafted to endure generations.

These custom-made slab tables incorporate the natural "live edges" of the tree but we can provide the look you are seeking in the living edge whether it is nearly straight or more organic in shape. We use only premium kiln dried hardwood lumber; our domestic live edge slabs are taken from large, rescued trees and then carefully dried in our Nyle Kiln to assure our unsurpassed quality and enduring value.

We understand and respect wood movement and craft perfectly machined glue joints and our tables and tops will provide long-lasting value. All solid wood tops are equally finished, top and bottom in our durable, no water ring and easy care Milesi 2k Polyurethane finish.
